

PROFILES OF ACADEMIC MAJORS: 2003 - 2013

The ***Profiles of Academic Majors*** (PAM) provides a ten-year longitudinal snapshot of enrollment headcounts and demographic statistics arranged by fall term, fiscal year or academic year as appropriate.

The **Overview** pages provided summarize the programs by academic level. Enrollments and credit hours for the most recent fall term are provided. Degrees awarded and total student credit hours for the academic year are also included on the overview pages.

The **PAM** is organized into six major sections. The first section provides data at the university level (all students, all undergraduate students, all graduate students, and all degree-seeking students by undergraduate/graduate level). The next four sections provide data for the colleges: College of Arts and Sciences (CAS), College of Business and Public Administration (CBPA), College of Education (COE), and College of Health and Human Services (CHHS). Each college section begins with the school summary followed by summarized profiles by undergraduate and graduate levels for all of its degree programs. Degree programs are grouped alphabetically within the colleges. (An **Index** is provided which lists all majors within each school by academic level). The sixth section provides profile data for undeclared/non-degree-seeking students organized by academic level.

There are three pages of statistics for each major or summary grouping. The first page for each shows fall enrollment data by selected demographic characteristics

and presents counts, as well as percentages, based upon the number of enrolled majors. The second page presents annualized data for each major. Degree counts are shown by fiscal year (as reported to the Illinois Board of Higher Education [IBHE] and other federal and state agencies). The comparative cost information is organized by fiscal year and comes from the annual IBHE Program/Major Cost Study, and thus coincides with the cost figures used in the academic program reviews. The annual counts for applications, admissions, and enrollments are derived from internal reports and are organized by academic year. The third page for each major provides a table of cross-tabulations (e.g., gender by ethnicity) for the current year's fall enrollment data.

Important Note: Current cost data is included as it becomes available via the IBHE Program/Major Cost Study report.

They are counted once in each college their program(s) belong to and they are counted once only at the university level. Thus, the unduplicated counts for the university and colleges do not sum to the total of the numbers of students enrolled in the programs.
