

## APPENDIX

### Academic Honesty

Academic honesty pertains to all methods of fulfilling academic requirements at Governors State University. The following procedures are appropriate ways to use the ideas and work of others when fulfilling academic requirements:

1. When someone else's work or scholarship is used to fulfill academic requirements, the source should be given credit. It should not be stated or implied that this work is a person's own work.
  - a. When using material from a publication, (e.g., book, journal, article, film, etc.), that material should be enclosed in quotation marks, or otherwise set off, and the source of the material acknowledged.
  - b. When paraphrasing published material, (e.g., using it almost word-for-word), the source should also be acknowledged unless the information is common knowledge in the field.
  - c. Unpublished data or ideas of another person should be utilized only with the consent of that person.
  - d. Material should be prepared jointly with one or more other individuals only with the permission of the instructor. The contributions of all individuals to this material should be clearly acknowledged when it is submitted.
  - e. Having someone else prepare material that is to be submitted should only be done with the instructor's permission to do so.
2. The same piece of work should not be submitted for credit in more than one course without the permission of all instructors involved.
3. Hypothetical data should be submitted only with the permission of the instructor to do so and should be clearly labeled as such.
4. One should refuse to make work available to another person who intends to submit part or all of that work as if he/she had written it.
5. Students may neither give, request, nor utilize assistance during an examination without the instructor's permission. These ethical guidelines are in no way intended to discourage people from studying together or from engaging in group projects.

### Access to Student Educational Records: Policy and Procedures

#### I. Forms and Federal Regulations ("Buckley") 34 CFR Part 99

##### A. Purpose

  - e. Alumni records which contain information about a student after the student is no longer in attendance at the University and which do not relate to the person as a student.
3. A parent includes a natural parent of a student, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.
4. An eligible parent is either (1) a parent of a student who has given written consent for the parent to review the student's education records or (2) a parent who has claimed the student as a dependent as defined in Section 152 of the Internal Revenue Code of 1954 in the most recently ended tax year.

## Residency Status

### (GSU Board of Trustees Regulations, Section IV. Subsection C)

#### 1. Definitions

For purposes of this regulation, the following definitions pertain:

- a. An "adult student" is a student who is eighteen or more years of age.
- b. A "minor student" is a student who is less than eighteen years of age.
- c. An "emancipated minor student" is a completely self-supporting student who is less than eighteen years of age. Marriage or active military service shall be regarded as effecting the emancipation of minors, whether male or female, for the purposes of this regulation.
- d. "Residence" means legal domicile. Voter registration, filing of tax returns, proper license and registration for driving or ownership of a vehicle, and other such transactions may verify intent of residence in a state. Neither length of university attendance nor continued presence in the university community during vacation periods shall be construed to be proof of Illinois residence. Except as otherwise provided in this regulation, no parent or legal or natural guardian will be considered a resident unless the parent or guardian maintains a bona fide and permanent residence in Illinois, except when temporarily absent from Illinois, with no intention of changing his or her legal residence to some other state or country.

#### 2. Residency Determination

The university shall determine the residency status of each student enrolled in the university for the purpose of determining whether the student is assessed in-state or out-of-state tuition. Each applicant for admission to the university shall submit at the time of application evidence for determination of residency. The office responsible for admissions shall make a determination of residency status.

- a. If a non-resident is classified by error as a resident, a change in tuition charges shall be applicable beginning with the term following reclassification. If the erroneous resident classification is caused by false information submitted by the student, a change in tuition charges shall be applicable for each term in which tuition charges were based on such false information. In addition, the student who has submitted false information may be subject to appropriate disciplinary action.
- b. If a resident is classified by error as a non-resident, a change in tuition charges shall be applicable during the term in which the reclassification occurs, provided that the student has filed a written request for review in accordance with this regulation.

#### 3. Residency Requirements

##### a. Adult Students

To be considered a resident, an adult student must have been a bona fide resident of Illinois for a period of at least six consecutive months immediately preceding the beginning of any term for which the individual registers at the university and must continue to maintain a bona fide residence in Illinois. In the case of adult students who reside with their parents (or one of them if only one parent is living or the parents are separated or divorced), the student will be considered a resident if the parents have established and are maintaining a bona fide residence in Illinois.

##### b. Minor Students

The residence of a minor student shall be considered to be the same as and change with the following:

1. That of the minor's parents if they are living together, or the living parent if one is deceased; or
2. If the parents are separated or divorced, that of the parent to whom custody of the minor has been awarded by court decree or order, or, in the absence of a court decree or order, that of the father unless the minor has continuously resided with the mother for a period of at least six consecutive months immediately preceding the minor's registration at the university, in which latter case the minor's residence shall be considered to be that of the mother; or
3. If the minor has been legally adopted, that of the adoptive parents, and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if the parent had been a natural parent; or
4. That of the legally appointed guardian of the person; or
5. That of a "natural" guardian such as a grandparent, adult brother or adult sister, adult uncle or aunt, or other adult with whom the minor has resided and by whom the minor has been supported for a period of at least six consecutive months immediately preceding the minor's registration at the university for any term if the minor's parents are deceased or have abandoned the minor and if no legal guardian of the minor has been appointed and qualified.

##### c. Emancipated Minors

If emancipated minors actually reside in Illinois, such minors shall be considered residents even though their parents or guardians may not reside in Illinois. Emancipated minors who are completely self-supporting shall be considered residents if they have maintained a dwelling place within Illinois uninterrupted for a period of at least six consecutive months immediately preceding the beginning of any term for which they register at the university. Emancipated minors who reside with their parents and whose parents (or one of them if one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide Illinois residence shall be regarded as residents.

##### d. Minor Children of Parents Transferred outside the United States

The minor children of persons who have resided in Illinois for at least twelve consecutive months immediately prior to a transfer by their employers to some location outside of the United States shall be considered residents. This rule shall apply, however, only when the minor children of such parents enroll in the university within five years of the time their parents are transferred by their employer to a location outside the United States.

##### e. Married Students

A non-resident student, whether minor or adult, who is married to a person who meets and complies with all of the applicable requirements of these regulations to establish residence status, shall be classified as a resident.

##### f. Armed Forces Personnel

Non-residents of Illinois who are on active duty with one of the services of the Armed Forces of the United States who are stationed in Illinois and who submit evidence of such service and station, as well as the spouses and dependent children of such persons, shall be considered residents as long as such persons remain

stationed in Illinois and the spouses and/or dependent children of such persons also reside in Illinois. If such persons are transferred to a post outside the continental United States but such persons remain registered at the university, residency status shall continue until such time as these persons are stationed within a state other than Illinois within the continental United States.

**g. Staff Members of the University, Allied Agencies, and Faculty of State-Supported Institutions in Illinois**  
Staff members of the university and of allied agencies, and faculties of state-supported institutions of higher education in Illinois, holding appointment of at least one-quarter time, and their spouses and dependent children, shall be treated as residents.

**h. Teachers in Public and Private Illinois Schools**  
Teachers in the public and private elementary and secondary schools of Illinois shall, if subject to payment of tuition, be assessed at the resident rate during any term in which they hold an appointment of at least one-quarter time, including the summer session immediately following the term in which the appointment was effective.

#### **4. Residency Status Appeal Procedure**

Students who take exception to their residency status classification shall pay the tuition assessed but may file a claim in writing to the university office responsible for reconsideration of residency status. The written claim must be filed within thirty (30) calendar days from the date of the tuition bill or the student loses all rights to a change of residency status for the term in question. If the student is dissatisfied with the ruling in response to the written claim made within said period, the student may file a written appeal within ten (10) calendar days of receipt of the decision to the responsible university office. Such written appeals shall be forwarded to the appropriate university vice president, who shall consider all evidence submitted in connection with the case and render a decision which shall be final.

#### **5. Special Situations**

Upon recommendation of the President, the Board may, in special situations, grant residency status to categories of persons otherwise classified as non-residents under this regulation.

### **Technology Outcomes for Students**

Computer and information technologies are integral features of our culture. These technologies are extremely useful in enhancing, supporting, and delivering instruction, and for students in researching, preparing and submitting assignments. These technologies are essential for students.

1. In order to support its instructional goals and to assure that its graduates are adequately prepared for the workplace, each academic program will incorporate technological competencies into its curricula and assess expected outcomes.

At minimum, the outcomes will include:

- Ability to use appropriate software for the development of papers, reports, and other assignments.
  - Ability to conduct searches on the Internet and to use library databases to access relevant literature.
  - Ability to send and receive electronic mail with attachments
2. A student's achievement of the required competencies defined in 1 above will be verified on the student's application for graduation by the advisor.
