

The Master of Social Work (MSW) Program *Social Work Practice Grounded in a Social Justice Ethic*

GSU's Master of Social Work program prepares advanced social work professionals to provide services to socially and economically vulnerable children, families and adults. The primary goal of our program is to prepare highly qualified, competent, advanced social work practitioners grounded in a social justice ethic.

Two programs

Full MSW Program: This program consists of 60 credit-hours in the foundation and advanced curriculum for students who have not earned the baccalaureate social work degree.

Advanced Standing Program: This program consists of 32 credit-hours of course work in the advanced curriculum. This option is restricted to prospective students who have already completed a baccalaureate degree in a social work education program accredited by the Council on Social Work Education (CSWE) within seven years from the date of application to GSU's MSW program.

MSW Program Concentration: Integrated Social Work Practice

After completion of the Social Work foundation curriculum, or upon admission to the Advanced Standing program, students may focus their graduate studies in three areas of specialization; Social work Practice with children, adolescents and families; School social work practice; and Holistic Practice; These specializations are grounded in evidence-based and best practice in primary care settings.

Fully Accredited

The MSW program is fully accredited by the Council on Social Work Education.

How to Apply

The MSW Program admits students only in the Fall Semester. Apply to the Master of Social Work Program at www.govst.edu/chhs/msw/apply. Please send all questions to mswadmissions@govst.edu. To attend an MSW Information Session contact the MSW Program at 708.235.3997. To view times and date go to <http://www.govst.edu/chhs/msw/apply/>.

NOTE: The Master of Social Work Program does not offer college credit for life experience.

FACT

Employment of social workers is projected to grow 12 percent from 2014 to 2024, faster than the average for all occupations. Employment growth will be driven by increased demand for healthcare and social services, but will vary by specialty.
