## Governors State University: Master of Social Work Program

The primary goal of the GSU M.S.W. program is to prepare highly qualified, competent advanced social work professionals to engage in critical practice grounded in a social justice ethic with children, adolescents, adults, families, and schools/communities. The MSW program is fully accredited by the Council on Social Work Education (http://www.cswe.org).

After earning a master's degree in social work and meeting any additional state requirements for social work licensure, graduates can apply to become a LSW (licensed social worker) or LCSW (licensed clinical social worker) in their state. Licensure for LCSWs typically requires two years of post-MSW supervised experience and a clinical exam (reference your state guidelines).

## **Program Options**

**The Advanced Standing Degree** is comprised of 32 credit hours for students with a Bachelor of Social Work (BSW) degree from a Council on Social Work Education (CSWE) accredited program. The BSW degree must be earned within 7 years of the date of application.

**The Full M.S.W. Program** is comprised of 60 credit hours for students without a Bachelor of Social Work (BSW) degree from a Council on Social Work Education accredited program. This program also applies to students with a BSW degree earned over 7 years from the date of application.

# **Specializations**

The Social Work Department offers specializations that are grounded in evidence-based and best practices in primary care and tertiary settings. Our programs include obtaining hands-on experience through field education through active observation of clinical client interactions, shadowing, and practice with actual clients. The Social Work Department provides two specializations:

### 1. **Children and Families** (with the option of a sub-specialty):

- Mental Health sub-specialty
- Licensed Child Welfare Practice sub-specialty (for professionals who want to provide or supervise direct child welfare services for the Department of Children and Family Services or any of its purchase-of-service (POS) providers).

### 2. School Social Work

### **Delivery Format: In Person**

Achieve your Master of Social Work degree in as little as one year in our Advanced Standing MSW Program (32-credit hours). You may complete the Full MSW Program in as little as two

years (60-credit hours). Both programs are available on a part-time and full-time basis (students who enroll part-time will take longer to complete their program of study).
