The University Honors seminar is structured so as to expose students to a higher level of critical thinking and analysis as they explore a given theme from a multitude of different perspectives. The course provides students with an enriched education as they step beyond their disciplines and examine a given problematic from a more multi-faceted and critical perspective. The course must be completed with at least a grade of B to be used for honors credit. Students who for scheduling reasons are unable to enroll in the Honors Seminar may find a substitutable course(s) in consultation with the University Honors Director.
