

Discovery

Sophomore Year:

- Set up an appointment with a career counselor to discuss connections between your major and the world of work. Begin to develop your resumé.
- If you are having difficulty deciding on a major, register for the Career Exploration class offered at GSU.
- Assess your interests, skills, and values. Several self-assessment tools are available.
- Volunteer, work on-campus, or become involved in student organizations that will contribute to your hands-on experience.
- Join professional associations related to your intended career field.
- Consider attending internship/career fairs to begin networking with employers and exploring potential internship options.
- Conduct informational interviews with those in careers of interest.
- Research career resources including:
 - Kuder Journey
 - What Can I Do With This Major?
 - Occupational Outlook Handbook
 - O*NET
 - Career Insider/Vault
