Introduction

Student Affairs and Enrollment Management Team at annual Professional Development event.

The Division of Student Affairs and Enrollment Management constitutes a team of dedicated student affairs educators and enrollment management professionals working with one common purpose – advancing the Governors State University mission by promoting the academic, personal and professional development of our students and inspiring them to be responsible citizens and leaders on-campus and in their communities.

At a transformative time for Governors State University, the division aspires to be recognized as a vital contributor in creating an inclusive, supportive and engaged campus community focused on student success. Articulating that contribution through our Reaching Vision 2020 strategic planning process, particularly in the midst of such challenging times in higher education, is critical to ensuring we serve our students and our community by fulfilling our mission.

The Reaching Vision 2020 plan demonstrates how the division contributes directly to GSU's Strategic Plan while also articulating the unique strategic opportunities within the division of Student Affairs and Enrollment Management. To accomplish this, our goals are written as part of both annual and long-term planning processes that align with institutional core values and strategic planning goals. Accordingly, our strategic goals are centered in the following focus areas:

- Admission Outreach, Recruiting and Visibility
- Athletics and Recreational Activities
- Career Development and Graduate Student Programming
- Community Standards and Student Advocacy
- Diversity Education and Leadership Development
- Dual Degree Program and Transfer Initiatives
- Enrollment Services and Records
- Financial Aid and Literacy
- First and Second Year Programs
- Student Involvement and Civic Engagement
- Student Success
- Student Wellbeing
- Veterans Resources

While this document articulates our contributions to Vision 2020, it is important to acknowledge that while deliberate, it is also adaptable, and should be used as a roadmap to best serve our campus community, particularly in times of great opportunity, and uncertainty.
