Study Plan for The Master of Fine Arts in Independent Film and Digital Imaging

The interdisciplinary Master of Fine Arts in Independent Film and Digital Imaging is a terminal degree in the applied arts of digital media production and imaging. The degree straddles the disciplines of Production in Media Communications and Digital Imaging in Art. Additional selective opportunities are available through English and Communications Studies.

Coursework for the Master of Fine Arts in Independent Film and Digital Imaging leads to specialized knowledge, creative development, and advanced technological skills in the applied digital arts of image making and media production. Beyond taking the required courses, students plan their specific programs in consultation with their advisors, adapting the degree path's selective sequences to their individual needs and interests. Graduates of the program will work in career areas such as higher education, filmmaking, graphic design, photography, 2D and 3D animation, motion graphics, web design, consulting, producing, media writing, TV production/direction, and training.

Admission Requirements

Applications for admission are accepted on a rolling basis. Students may apply at any time and expect a program review and decision within two weeks. Applications for admission are available from the GSU [Office of Admission and Student Recruitment](#). Due to limited space availability, this program can only accept 15 students on each track at any give time. Some applicants will be admitted on a conditional basis.

In addition to meeting university admission criteria, applicants must submit evidence of the following to the Office of Admissions:

- an undergraduate major in Film, Media, Multimedia, Communication, or related areas
- a minimum prerequisite GPA of 3.0 on a 4.0 scale.
- a current resume
- a \$50 application fee
- a digital sample of work: for students in digital filmmaking, a sample of a prior production on vimeo, youtube, or a personal website, or sample screenplay by email; for students in photography / digital imaging, a website including a range of stills
- three letters of reference from individuals who can speak to the applicant's strengths as a potential student

- a Statement of Intent / Artist's Statement with respect to your goals in taking the MFA and your artistic philosophy. This may be as short as one page.

Note: Applicants may, at the discretion of the M.F.A. admissions committee, also be requested to participate in a personal interview.

Recommended Preparation

Admission to the program is restricted to a maximum of 15 students at any given time on a “rolling” basis.

Admitted students will have maintained a GPA of 3.0 over the course of completing an undergraduate degree. All students must submit a portfolio demonstrating advanced proficiency and creative promise.

While admission to the program does not require an undergraduate major in Film, Video, or Photography, an undergraduate major in these or in one of the following fields is: media, multimedia, communications, English, speech, or liberal arts. In addition, students are expected to have demonstrable competence in digital technology and in oral and written communication.

Internship and Thesis/Project

As part of this degree program, students will pursue both an internship and thesis/project. The student independently pursues a field-related internship and develops an agreement with the assistance of the internship site coordinator. Upon approval of the coordinator, the student may register for IFDI 8800 Internship with a GSU coordinator. The GSU coordinator must be a full-time faculty in IFDI.

In the thesis/project, the student selects a committee consisting of a thesis/project advisor and two additional faculty members, and then develops a proposal acceptable to the committee. Faculty advisors and readers must be drawn from full-time faculty in IFDI, ART, or MCOM. Students may register for IFDI 8990 once the committee has approved the student's proposal. The student then completes a project/production with the guidance of the thesis/project advisor. A paper must accompany all projects submitted for evaluation. Once the project is completed and approved by the committee, a grade is assigned.

Minimum Degree Requirements

Students must maintain a GPA of 3.0 or higher to complete requirements for the MFA. A grade lower than “B” taken in any course will not be counted toward graduation.

Prerequisite courses:

Note: Courses taken below the 500-level are not counted toward the total number of required Graduate credits. *The column after the course title identifies the trimester in which the course was most recently offered, and is meant to be a rough guideline for projecting your degree, not a fixed resource. Please consult the on-lines schedule in the weeks prior to the new trimester for the most up-to-date list. F = Fall, SP = Spring, SU = Summer, CS = Consult Schedule*
