November 10, 3:00 pm

Persons with Lived Experience, family members, friends, allies, Recovery community members, healthcare workers, counselors, nurses, doctors, teachers, LGBTQ+, school administration, law enforcement, legal representatives, local government administration, social service agencies, religious communities, business members, etc.

DuPage ROSC FAQs:

- **Why should I join?** Raise your voice! Join the Council to share your ideas and solutions to the SUD/COD health crisis.. Share your concerns regarding substance use and mental health disorders.
- **Time commitment** - ROSC Council meetings are only once a month on the last Wednesday of each month.
- **Free Trainings:** Recovery Coach Academy, leadership, Stigma Reduction Campaign, NARCAN® training, and more.
- **Contribute to the solution** — Be the change you wish to see right here in your community.

The central focus of DuPage ROSC is to create an infrastructure - a system of care with complete comprehensive resources to effectively address SUD/COD.

Please RSVP to Jarrett Burton and he will provide Zoom link.

About DuPage ROSC

Our purpose is to join forces with community-wide recovery supports to develop a seamless system of care for individuals with substance use and co-occurring disorders (SUD/COD) who are in or seeking recovery and their families, allies and other supports.

What is ROSC?

Guided by Persons with Lived Experience (PLE), the ROSC Council collaborates to develop a coordinated network of SUD/COD services and supports for individuals, families, and communities. The council will assess the community to identify gaps in service and join together to resolve those gaps in services.

ROSC Goals

Develop and implement an effective Council governed by PLEs whose goal is to improve services and supports for those with SUD/COD, their families, allies, and community members. ROSC Council members collaborate to:

1. Conduct a community-wide assessment to identify gaps in SUD/COD services;
2. Develop solutions to the gaps identified by community assessment
3. Conduct prevention education in local schools
4. Provide community-wide educational outreach on SUD/COD and avenues to recovery
5. Launch the stigma-reduction campaign
6. Affect policy change
7. Mobilize partnerships.
