

What is a ROSC?

(Recovery Oriented Systems of Care)

"A COORDINATED NETWORK OF COMMUNITY-BASED SERVICES AND SUPPORTS THAT IS PERSON-CENTERED & BUILDS ON THE STRENGTHS AND RESILIENCE OF INDIVIDUALS, FAMILIES, & COMMUNITIES TO ACHIEVE ABSTINENCE & IMPROVED HEALTH, WELLNESS, AND QUALITY OF LIFE FOR THOSE WITH OR AT RISK OF SUBSTANCE USE DISORDERS (SUD)"

RECOVERY EMERGES FROM HOPE

The pathways toward recovery look different for every individual, but they all have one thing in common: the belief that recovery is real and barriers can be overcome to build a better tomorrow after Substance Use Disorder.

Like many places across the country, communities are facing a growing need for recovery infrastructure to connect services & grow a wide range of supports for individuals & families.

DO YOU HAVE IDEAS TO CONTRIBUTE?

Join us as we build bridges on the road to recovery.

Recovery Oriented Systems of Care (ROSC) is currently seeking input from people with lived recovery experience, providers of medical & mental health care, community leaders & business owners, leaders of our faith communities, & anyone who has ideas about how substance use recovery services can be improved in our community.

We all know someone impacted by a mental health or substance use disorder. With your help, we can work towards **Recovering Together**.
