## Who

SI SUPRT Council is a coalition of people from the community and agencies in Gallatin, Hamilton, Saline, and White counties who are working together to increase and bring awareness to recovery services and supports in these counties. We have a variety of members from persons with lived experience of substance use disorder & recovery to family members, community partners and more. Anyone who wants to bring awareness to recovery services is welcomed to join.

Recovery is possible!

## What

SI SUPRT is working to build recovery supports in the community. We want people in recovery to be accepted and supported, talked about positively, and celebrated in the community. To do that, we have monthly meetings to discuss issues those in recovery and with a substance use disorder face. Discussions occur with local partners who work to improve conditions for people in recovery. We have developed a strategic plan based on identified community needs, and need more people in our service area —especially those in recovery-- to bring the plan to life.

## When

SI SUPRT Meetings are the 1st Wednesday of the month from 12-1:00PM. For more information, please contact [cdennis@egyptian.org](mailto:cdennis@egyptian.org)

# MAKE RECOVERY THE EPIDEMIC

*We want to plan activities that meet the recovery community's needs. We are also looking to develop leadership among people in recovery and on our SI SUPRT Council. Please join our efforts and help make recovery supports visible and recovery stories heard in our area.*
