Growth. Community. Transformation.

WHAT IS ROSC/RECOVERY ORIENTED SYSTEM OF CARE?

ROSC is a coordinated network of community-based services and supports that is person-centered and builds on the strengths and resiliencies of individuals, families, and communities to achieve recovery and improved health, wellness, and quality of life for those with or at risk of substance use disorders.

*Attention:
Alexander County & Pulaski County*

HOW CAN YOU GET INVOLVED?

Bring your ideas and input to the table. These are OUR Southern Illinois communities – it is up to us to voice our thoughts, questions, comments, and concerns in hopes of fostering community spaces and frameworks that are easy to navigate for those working on recovery, as well as family members, friends, and our communities at large.

Bring your open hearts, minds, and ears. By actively listening to the perspectives of others as well as sharing our own – we encourage a greater understanding of the unique needs of each individual and the importance of building and maintaining social connections. This in turn helps create healthier more vibrant communities.
