

McDonough/Fulton County ROSC

Community Resource Assessment

Members of the McDonough/Fulton County ROSC have participated in several interviews over the past few months. These interviews were done to help assess the community, as well as the recovery climate and resources in both Counties. People interviewed were very pleased with the recovery available in both counties. Each county has a thriving mutual aid recovery community that features 12 step and faith based recovery. Both County Seats of McDonough (Macomb) and Fulton (Canton) Counties has a North Central Behavioral Health Systems where many people seek recovery services. People in both counties gave praise to the availability of naloxone and harm reduction supplies in both counties.

There were some gaps and barriers identified in the interviews conducted. 1). A person has to travel 1 hour or more to find detox and in-patient treatment options. 2). There is no technical “sober living” in either county. 3). Both McDonough and Fulton County are very rural areas and smaller communities.
