

“Collaborating to Build and Empower Communities of Recovery.”

McLean County Recovery-Oriented System of Care (ROSC) FY24 Recovery Community Asset Mapping

Updated November 2023

Asset Mapping Methodology:

The McLean County ROSC team approached community asset mapping through a three-part strategy. The first part of the strategy included review of the McLean County Mental Health Action Plan 2022 Update to take an in-depth look at what McLean County has historically done well and accomplished towards its outlined goals and objectives. The second part of this strategy comprised of an in-depth review of the McLean County Community Health Improvement Plan 2023-2025, looking at what community partners and community collaborations have been involved in working on the achievement of community health improvement goals. The third part of the strategy included review of the McLean County ROSC FY24 Community Resource Mapping document to identify what recovery support community resources have been especially valuable to the work of the McLean County ROSC and to the McLean County recovery community. Further analysis of all the assets was completed by categorizing assets through the lens of what major dimension(s) of recovery that they support. The four major dimensions of recovery are defined by SAMHSA with their definition of recovery.

SAMHSA’s Definition of Recovery and Four Major Dimensions of Recovery:

Recovery is “the process of change through which individuals improve their health and wellness, live self-directed lives, and strive to reach their full potential.”

1. Health: Overcoming or managing one’s disease(s) or symptoms, and making informed, healthy choices that support physical and emotional well-being.
2. Home: Having a safe and stable place to live.
3. Purpose: Conducting meaningful daily activities, such as a job, school, volunteerism, family caretaking, and the independence, income, and resources to participate in society.
4. Community: Having relationships and social networks that provide support, friendship, love, and hope.

McLean County Mental Health Action Plan (MHAP) 2022 Update – Identified Recovery Community

Assets

<i>Asset</i>	<i>MHAP 2022 Update Key Focus Area</i>	<i>Supported Dimension of Recovery</i>
