

## Far Southside ROSC Initiative (TEECH Foundation)

### Community Assets Mapping

“The Far Southside of Chicago is a vast up and coming area, comprised of diverse, caring community leaders, businesses, green energy/technology companies, faith leaders, organizations, schools and residents (young and old), who are working together to revitalize, develop, and create a thriving community of neighborhoods that are economically, physically, culturally, educationally, financially productive, successful, and safe for all those with a stake in the community. “ <https://mappedchicago.org/projects/quality-of-life-plan-far-south-chicago>
