### **Project Description**

The Recovery Oriented Systems of Care (ROSC) Council will assist communities with continuing to build local recovery oriented systems of care and that can network with the statewide ROSC Council. FGC serves as the lead Agency collaborating with community members to form the local ROSC Council. To ensure the sustainability of the ROSC Council, this lead agency must demonstrate a commitment to establish the ROSC Council permanently with a long-term (3-year) strategic plan, either as a stand-alone non-profit organization or with a permanent business relationship with a lead agency. This agreement is set forth by terms and conditions applicable to services funded by the Illinois Department of Human Services (IDHS), Division of Substance Use Prevention and Recovery (SUPR) for the development of Recovery Oriented Systems of Care Council.

### **Community Readiness to support the ROSC and RCO**

The Sangamon County ROSC Council is a dynamic group comprised of individuals representing numerous community sectors including but not limited by; individuals with lived experience, advocates, local FQHCs, local hospitals, Mental Health professionals, SUD providers, Sangamon County Health department, and local law enforcement agencies. The community welcomes the chance to participate in the group and events. There is support for a local RCO, which has been developed (Recovery Connections). Recovery Connections would provide a solution that would support wrap around services that various organizations would support to increase resources available to individuals and their families in Sangamon County. Currently there is no operating RCO in the community. However, in council meetings and individual meetings, it has been expressed that there is a need to incorporate individuals in recovery into the recovery system that currently exists in Sangamon County. Due to this Recovery Connections is well received and supported in Sangamon County by the community.

### **Expansion Opportunities**

The Sangamon County ROSC will require continuous engagement, community by-in and involvement from community stakeholders. Sangamon County organizations to work together to combine available resources to help individuals in recovery and their families by increasing safe and permanent housing, transitional living, increase peer recovery specialists and or recovery coaches. The community stakeholders also working together to address transportation support to

help with engagement in recovery capital. The Sangamon County ROSC will provide a hybrid option for ROSC Council meetings to assist in increasing stakeholder representation.
