III. Churches/Naloxone Boxes- **There are some great ideas of how we could reach the churches and try a lower the stigma with Naloxone and how it is to save a life. When we were talking to faith-based to make sure and bring up young children and older people who might not have the best memory—wanting to have an event where we were helpful to the church and the community but still able to teach about stigma and be more open-minded and kinder. We also talked about being able to have Naloxone Boxes out in the Community 3 or 4 around town. We are working with Heritage and Dewitt County Mental Health.**
