Community Needs Assessment

ROSC Deliverable: community needs assessment to understand gaps in recovery-related services in Sangamon County, and community awareness of services.

- 11/30/24 - community survey completed
- 1/30/25 - community asset map completed (*existing resource list: <https://www.sangamoncountyrosc.org/resources>*)
- 2/28/25 - needs assessment completed

Community Needs Assessment

Thinking about Sangamon County and the needs assessment requirements:

1. What are questions you would like to ask the community (related to services, gaps, knowledge, etc.)?
2. Where do you recommend we conduct the community survey?
 - What formats have worked well in the past (focus groups, digital, interviews, etc.)?
 - Organizations, locations, settings, priority groups...
3. How can we structure the needs assessment process so that the results are most useful/actionable to you?

Community Needs Assessment

Interested in getting involved in planning and implementing the community needs survey?

- Commitment: September – early December 2024
 - o 1-2 meetings/month
- Examples of other ROSC Needs Assessments: [Recovery Coaching Network at GSU \(govst.edu\)](https://govst.edu)
