V. Featured Guest Speaker – Sandra Beacher (Gateway) talked about how they have Customized Addiction Treatment and Recovery. The rehab admissions process is tailored to each patient's needs, as not all require the same level of care. Addiction treatment offers various formats, allowing patients to select a program that suits their current needs and lifestyle. Some patients transition into sober living, while others return to their families and careers, with ongoing support from alumni programs and numerous support groups nationwide. Behavioral therapy, a full continuum of care, commitment therapy, medical support, and motivational interviewing contribute to a successful recovery.

V. In-person feedback/Satisfaction- No Comments
